# 01 Overview Problem

Family who have mixed use of Android phones and iPhones get limited choices.

## Smart/Non-smart Penetration Rate

Smart home appliances market share is still very low. Most of the households use regular home appliances.

# 01 Overview

## Goal

Using non-Smart home appliances

smart non-smart

Using both Android/iPhone

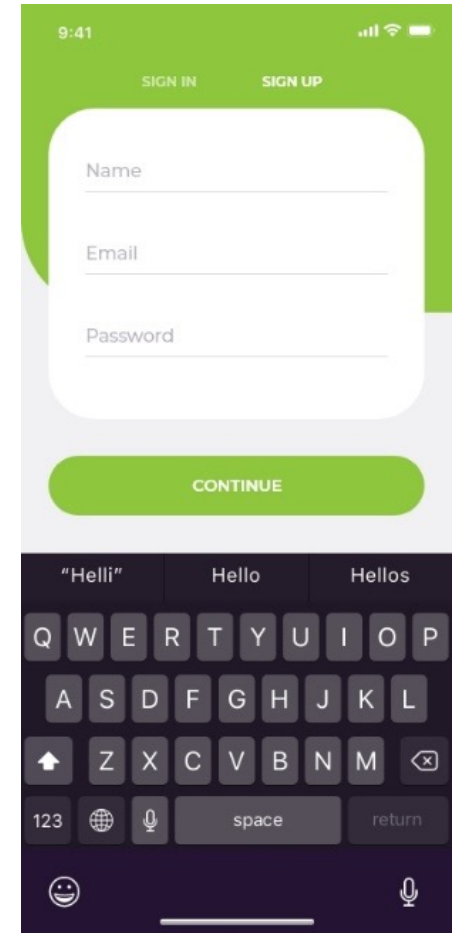

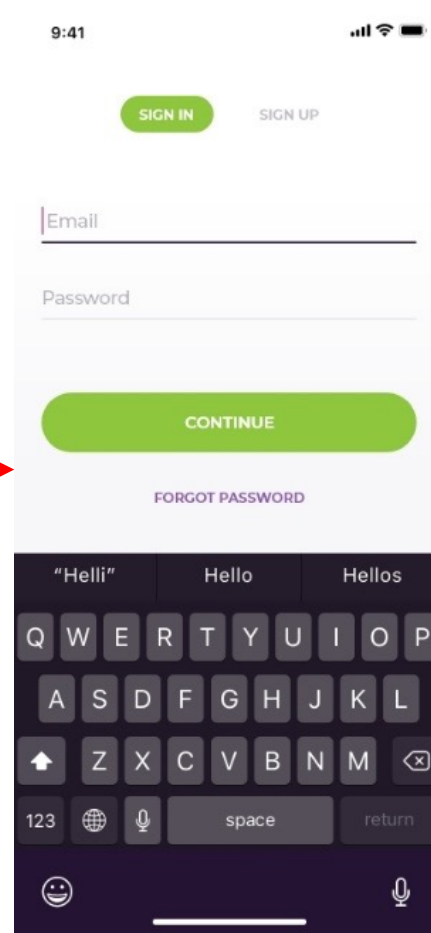

Our product target families who 1) use regular home appliances and 2) have both Android and iPhones
